## Introduction

In 2017, the National Park Service began its second century of caring for the nation's most significant natural and cultural resources. NPS units received 330,882,751 recreation visits in 2017 and fell short of 2016's record-breaking centennial year by less than 90,000 visits (down 0.03%). Recreation visitor hours were up over 19 million visitor hours (1.3%) from 2016 for a total of over 1.44 billion hours spent in parks by visitors. Sixty one NPS units set a new record for visitation in 2017 and 42 of these parks broke a record they set in 2016. Three units had over 10 million visits and 81 units (21% of reporting parks) had more than 1 million visits. Several parks passed milestone recreation visit records including Grand Canyon National Park (6 million recreation visits), Zion National Park (4.5 million recreation visits) and Glacier National Park (3 million recreation visits). Glacier National Park also saw more than one million visits in the month of July.

Several factors likely influenced NPS visitation in 2017. A solar eclipse passed over the United States on August, 21, 2017. The total solar eclipse was visible from 21 park units and 7 trails and at least a partial eclipse was visible from every park in the contiguous U.S. Several parks reported exceptionally high visitation in August – Agate Fossil Beds NM and Homestead NM in Nebraska both had over a 500% increase in recreation visits from August 2016, mostly because of the eclipse. Other parks saw increases as visitors stopped by NPS units on their way to or from their eclipse viewing site.

Starting in September, several southeastern and Caribbean parks experienced significant closures because of hurricanes and NPS recreation visit totals for the last four months of the year were all lower than in 2016. October had the largest decrease in visitation from 2016 of any month, mostly due to lingering closures from September hurricanes.

Total annual overnight stays were also slightly down from 2016 (4% decrease). Concession operated lodging and campgrounds were up while other categories of overnights were down. Some of the increase/decrease by category can be explained by noting that campgrounds at some parks changed category from NPS operated sites to concession operated sites.

In the pages that follow, a series of tables and figures display visitor use data for 2017. By documenting these visits across the National Park System, the NPS Statistical Abstract offers a historical record of visitor use in NPS units and provides NPS staff and partners with a useful tool for effective management and planning. In 2017, 385 of 417 NPS units collected visitor use data; the remainder are unable to do so for a variety of reasons, such as administration by another agency, non-federal land ownership or new parks that lack staff and facilities for management of visitor statistics.

The responsibility for compiling and summarizing visitation records lies with the Social Science Program in the Environmental Quality Division, Natural Resource Stewardship and Science Directorate. The Program relies on the conscientious efforts of NPS field staff to count, record and report visitor use. This system of collecting and analyzing monthly visitor use data is combined with continuous review and assessment of park counting procedures to ensure consistency and accuracy of data. Detailed, unit-specific instructions for the units that collect data are available on the Visitor Use Statistics website (<https://irma.nps.gov/Stats/>).

In addition to this Abstract, the Social Science Program produces monthly visitation summaries and reports displaying trends in park visitation and changes in visitation patterns over time. These reports are available on the Visitor Use Statistics website. Additional reports prepared by the Social Science Program may be found on the NPS Social Science Program subject website (<https://www.nps.gov/subjects/socialscience/index.htm>).

## 2017 Visitor Use Data

The following tables and figures record visitor use data for units of the National Park System in 2017; some tables and figures compare those data to 2016. Endnotes that apply to multiple tables, definitions for terms, and abbreviations used in the tables can be found at the end of this document.

### Recreation Visits by Type of Unit

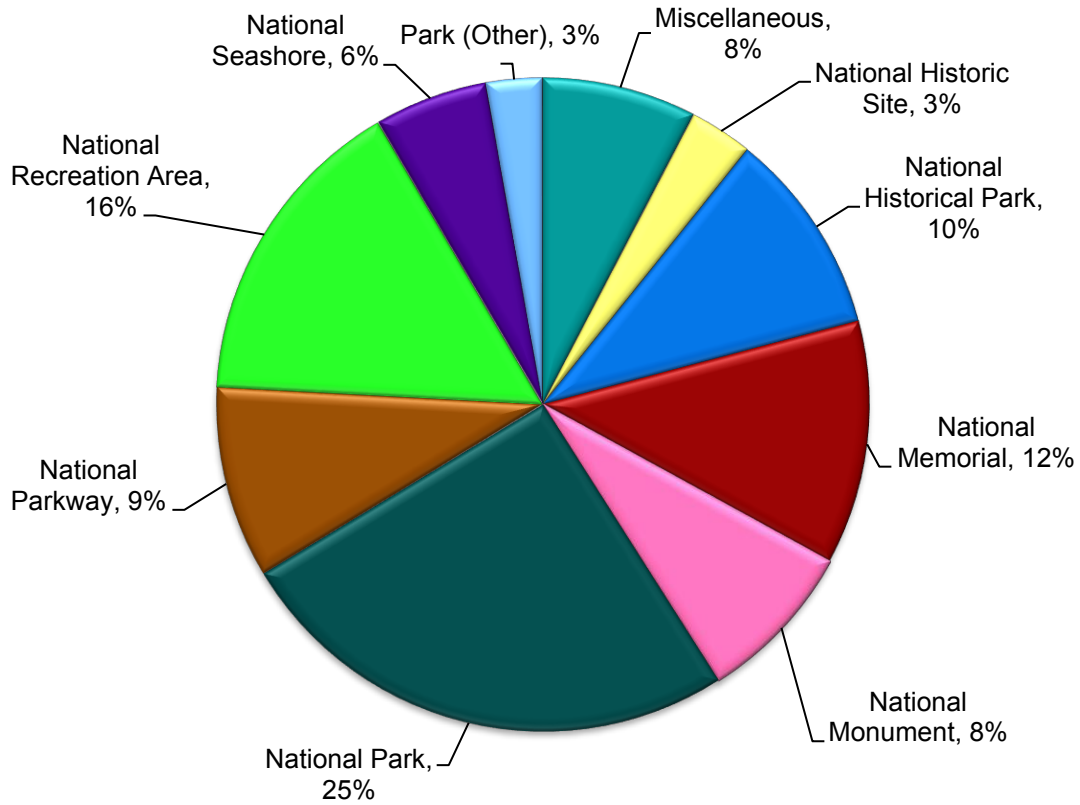

Table 1 lists the number of recreation visits by type of unit in 2017. Of 417 units, 385 reported visitor use statistics in 2017 (see Table 7 for a list of units that did not report visitor use). National parks received the highest percentage of recreation visits (25%), followed by national recreation areas (16%) and national memorials (12%). The figures that follow show percentage of recreation visits by type of unit (Figure 1) and a comparison with 2016 by type of unit (Figure 2).

## Recreation Visits by State

Table 2 reports 2017 NPS recreation visits in each state, the District of Columbia, and the U.S. territories of American Samoa, Guam, Puerto Rico and the U.S. Virgin Islands. The table also shows 2016 recreation visits and the percent change in recreation visits from 2016 to 2017. Figure 3 displays this change for each state and territory with the exception of Delaware, which currently does not have a reporting NPS unit. Overall the number of recreation visits is down 0.03% from 2016 (330,882,751 in 2017 compared to 330,971,689 in 2016).

## Recreation Visits / Visitor Days by Population Center

Table 4 shows the number of recreation visits, visitor days and change from the previous year for NPS units by population centers. Population centers are defined in the Definitions section at the end of the abstract. Figure 5 compares 2016 and 2017 recreation visits by population center. Recreation visits increased in Mixed, Rural and Suburban areas. Recreation visitor days increased in Mixed, Outlying and Suburban areas.

### Recreation Visits / Visitor Days and Non-Recreation Visits / Visitor Days by Park

Table 5 is a complete record of recreation visits and visitor days for all NPS units reporting visitor use data. The table also shows non-recreation visits and visitor days which include through traffic (commuters), persons going to and from inholdings, tradespeople with business in the park, and government personnel (other than NPS employees) with business in the park. While recreation and non-recreation visits were down slightly, recreation and non-recreation visitor days were up slightly. Superscript references can be found in the Endnotes.

### Average Recreation Visits per Day to NPS Units

Visitation to NPS units varies throughout the year. The service-wide average of visits per day, broken down by month, is shown in Figure 6. July had the highest average visits per day at 1,476,726; January had the lowest at 462,639. Visits in January, February, April, and May were up slightly over 2016 while the other months were down slightly. January saw the largest percent increase (18.8%) while October saw the largest percent decrease (-6.3%).

**Figure 6.** Average Number of Recreation Visits per Day to NPS Units by Month, 2016 and 2017

## Overnight Stays

In addition to recreation visits, the National Park Service tracks the number of overnight stays, which are defined as one night within a park by a visitor. One visitor staying 10 nights or 10 visitors staying one night apiece both equal 10 overnight stays. Table 6 shows the number of overnight stays by NPS unit in concessioner lodging, concessioner campgrounds, NPS campgrounds (separated by tent overnights and RV overnights), backcountry and miscellaneous locations (any location not otherwise defined such as sleeping aboard boats). The number of non-recreation overnight stays, such as leaseholders, line shacks for ranchers, and government personnel other than NPS employees, is also included. In 2017, NPS units recorded a total of 14,803,755 overnight stays which is a 4% decrease from 2016. Figure 7 shows the trend for overnight stays by category for the most recent 25 years (1993 to 2017). Superscript references can be found in the Endnotes.

## Affiliated and Non-Reporting Areas

Areas affiliated with, but not officially considered a unit of, the National Park System do not report visitor use data. Also, some NPS units were unable to report for a variety of reasons such as joint administration, non-federal land ownership or new parks that lack staff and facilities for management of visitor statistics. Table 7 lists these affiliated and non-reporting areas. Superscript references can be found in the Endnotes.

### Recreation Visits / Visitor Days by State and U.S. Territory

Table 8 documents the number of recreation visits and visitor days for all NPS units that reported visitor use data in 2017 by state and displays the percent change from the previous year. It is an expansion of Table 2 (2017 Recreation Visits by State and U. S. Territory Compared to 2016) and organizes recreation data in Table 5 (2017 Recreation Visits / Visitor Days and Non-Recreation Visits / Visitor Days by Park and Change from 2016) by state. Superscript references can be found in the Endnotes.

## Acreage Data

The NPS Land Resources National Program Center prepares annual reports of acreage in NPS units. The following tables are included here as supporting data for visitor use statistics. Table 9 displays the listing of acreage for all NPS units; Table 10 provides a summary of acreage by type of park. Acreage terms are defined in the Definitions section. Additional reports are available on the Visitor Use Statistics website (<https://irma.nps.gov/Stats/>) and the LandsNet website (<http://landsnet.nps.gov/Acreage.asp>).

## Definitions

**ACREAGE**—The listing of acreage in Tables 9 and 10 use the following terms provided by the NPS Land Resources National Program Center:

- ❑ **Fee**—The maximum possible estate one can possess in real property. It is the most complete and absolute ownership in land. It is of indefinite duration, freely transferable and inheritable.
- ❑ **Less Than Fee**—Any estate that is less than full Fee ownership, for example: Scenic Easement.
- ❑ **Other Fee (Federal)**—Tracts under the administration of another federal agency (e.g., U.S. Forest Service, Department of the Army, Coast Guard, etc.). Bureau of Land Management tracts are also identified as Other Fee (Federal) until they are withdrawn for NPS use; then status changes to Fee.
- ❑ **Public**—A non-federal tract that is owned by the state, county, and/or other municipalities, including quasi-public entities such as the South Florida Water Management District or the Santa Monica Conservancy.
- ❑ **Private**—A privately owned tract before it is acquired by the federal government. Examples of private landowners are individuals, corporations, companies, trustees, partnerships, etc.

**AFFILIATED AREA**—An area administered in connection with the National Park Service (NPS), which uses NPS assistance but is neither federally owned nor directly administered by the NPS.

**BACKCOUNTRY**—One or more primitive or wilderness areas which are reached primarily by hiking, boating or horseback. This does not include developed campgrounds solely because they happen to be located on an island (e.g. at Isle Royale NP).

**CAMPGROUND**—An area of land designated and developed for use as a camp.

**CLASSIFICATION**—Designated names for areas administered by the NPS may be found in the publication, *The National Parks: Index 2012-2016*.

**CONCESSIONER**—A private company or an individual granted the privilege of providing facilities and services considered necessary by the NPS for accommodating visitors.

**CONCESSIONER CAMPGROUND**—An element of an concessioner operation involving services for overnight camping such as RV parks, tent campgrounds and trailer courts where trailers are not provided by the concessioner.

**CONCESSIONER LODGING**—An element of a concessioner operation involving facilities for overnight lodging such as hotels, motels, cabins, cottages, trailer villages and trailer courts where trailers are available for rent by visitors.

**MISCELLANEOUS OVERNIGHT STAY**—Any overnight stay not otherwise defined such as sleeping aboard boats, camping in organized group campsites, and/or any overnight stays not included in other categories. This excludes overnight stays on private inholdings, which are non-reportable.

**MIXED AREA PARK**—see **POPULATION CENTERS**.

**NATIONAL PARK SERVICE (NPS)**—A Department of the Interior (DOI) bureau which administers approximately two dozen types of federal land, nationally significant for their scenic,

natural, scientific, historical, or archaeological interest (see **CLASSIFICATION**). The NPS was established as a bureau of the DOI by an Act of Congress on August 25, 1916. The NPS does not administer National Forests (United States Department of Agriculture/Forest Service), Wildlife Refuges (United States Department of the Interior/Fish and Wildlife Service), or a variety of other public lands available for visitor use.

**NEGLIGIBLE TRANSIT**—A brief, incidental entry into a park by passing traffic (vehicular or pedestrian) using NPS-administered grounds, roads, or walkways (see **NON-REPORTABLE VISIT**).

**NON-RECREATION OVERNIGHT STAY**—A reportable non-recreation overnight stay is any overnight associated with non-recreation visits and includes leaseholders, line shack overnights for ranchers on park administered territory, government personnel other than NPS employees, nights on board commercial fishing vessels in NPS administered waters, researchers on non-NPS government business who stay overnight, and other related overnight stays.

**NON-RECREATION VISIT**—A reportable non-recreation visit includes:

- ❑ Persons going to and from inholdings across significant parts of park land;
- ❑ Commuter and other through traffic using Service-administered roads or waterways through a park for their convenience;
- ❑ Trades-people with business in the park;
- ❑ Any civilian activity a part of or incidental to the pursuit of a gainful occupation (e.g. guides);
- ❑ Citizens using NPS buildings for civic or local government business, or attending public hearings;
- ❑ Outside research activities (visits and overnights) if independent of NPS legislated interests (e.g. meteorological research).

**NON-REPORTABLE VISIT**—The entry into a park by NPS employees, their families, concession employees, members of cooperating associations, NPS contractors and service personnel are not reportable for visitor use. Specific situations include:

- ❑ Employees of the NPS who are assigned to the park or are visiting the park in connection with their duty assignment;
- ❑ NPS contractor, concession, and cooperating association employees;
- ❑ Temporary or permanent members in households of personnel otherwise included in this definition whose residence is in the park;
- ❑ Private tenants within NPS boundaries (inholders) if not crossing significant NPS territory for access;
- ❑ Persons engaged in pursuit of specific legal rights of use (e.g. subsistence hunting and fishing);
- ❑ Any other persons whose presence in the park is to help the Service fulfill its mission (e.g., volunteers in parks, research activities associated with the NPS mission).

In addition, brief, incidental entries into a park by passing traffic (vehicular or pedestrian) using NPS administered grounds, roads, or walkways is considered non-reportable. Civil ceremonies (e.g., ritualistic observances, marriages) are non-reportable unless there is a traditional, legislative or other official and externally imposed requirement bearing on the park, or unless there is a compensatory contract with the activity sponsor as with an authorized special use permit.

**NOT REPORTING**—These areas do not report visitation to the NPS.

**OUTLYING AREA PARK**—See **POPULATION CENTERS**.

**OVERNIGHT STAY**—One night within a park by a visitor. Overnights by concession employees, inholders, NPS employees and their families are non-reportable. A party of 2 visitors staying over for 3 nights yields 6 overnight stays. There are seven categories of overnight stays:

- ❑ Persons staying overnight in concessioner operated lodges, cabins, motels and hotels are reported as **Concessioner Lodging Overnight Stays**.
- ❑ Persons staying overnight in concessioner operated tent campgrounds, RV parks and trailer courts (trailers not provided by concessioner) are reported as **Concessioner Campground Overnight Stays**.
- ❑ Campers in soft-sided tents, sleeping bags or tents attached to a vehicle in NPS operated campsites are reported as **NPS Campground Tent Overnight Stays**.
- ❑ Campers in recreational vehicles including tent trailers at NPS operated campsites are reported as **NPS Campground RV Overnight Stays** (see definition of Recreational Vehicle).
- ❑ Campers in sleeping bags or soft-sided tents erected at undeveloped walk-in campsites not accessible by road are reported as **Backcountry Overnight Stays**. This does not include camping areas having walk-in sites with nearby parking, nor does it include developed campgrounds solely because they happen to be located on an island.
- ❑ Campers in group camping areas, on board transport or boats, at trailside shelters, in youth or elder hostels, in undeveloped overflow areas, or in other areas not otherwise described here are reported as **Miscellaneous Overnight Stays**.
- ❑ **Non-Recreation Overnight Stays** are any overnight associated with non-recreation visits (e.g. nights on board commercial fishing vessels within NPS administered waters or researchers on non-NPS government business who stay overnight). All non-recreation overnight stays should be captured in this category regardless of whether they occurred in concessioner lodging, campgrounds, backcountry, etc. Overnight stays on private inholdings are non-reportable.

**POPULATION CENTERS**—NPS areas are categorized by their proximity to population centers in the following manner:

- ❑ **Mixed Area Park**—a park located in a mixture of Outlying Area, Rural Area, Suburban Area and/or Urban Area.
- ❑ **Outlying Area Park**—More than 75% of the park is located within a 2010 Metropolitan Statistical Area (MSA) with a population of less than one million people but outside of any Urbanized Areas (Urbanized Areas as defined by the U.S. Census Bureau).
- ❑ **Remote Area Park**—A park located outside of any 2010 MSA and requiring special travel arrangements to reach.
- ❑ **Rural Area Park**—More than 75% of the park is located outside of any 2010 MSA and accessible by paved highway, schedule air or marine transportation service.
- ❑ **Suburban Area Park**—More than 75% of the park is located within a 2010 MSA with a population greater than one million people but outside of any Urbanized Area (Urbanized Area as defined by the U.S. Census Bureau).
- ❑ **Urban Area Park**—More than 75% of the park is located within a 2010 Urbanized Area as defined by the U.S. Census Bureau.

**RECREATION VEHICLE**—Any enclosed vehicle used for camping which is more elaborate than a simple truck or car, such as a pickup truck with camper body, pop-up tent trailer, travel trailer, bus, motor coach, mobile home, etc.

**RECREATION VISIT**—The entry of a person onto lands or waters administered by the NPS except as defined above for non-reportable and non-recreation visits. Funeral parties at National Cemeteries, school groups, etc. are reportable as ‘recreation’ use since their use meets the purpose for which the park was established. Visits originating on surface vehicles (trains, boats, other) and aircraft may be counted if they stop and disembark passengers on NPS administered territory. **The applicable rule is that one entrance per individual per day is countable.**

**REGION**—A NPS administrative subdivision. The seven NPS regions include the following states and territories:

- ❑ Alaska (AK)—Alaska
- ❑ Intermountain (IM)—Arizona, Colorado, Montana, New Mexico, Oklahoma, Texas, Utah, Wyoming
- ❑ Midwest (MW)—Arkansas, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, Wisconsin
- ❑ National Capital (NC)—Washington, DC, with some units in Maryland, Virginia, West Virginia
- ❑ Northeast (NE)—Connecticut, Delaware, Maryland, Massachusetts, Maine, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia
- ❑ Pacific West (PW)—American Samoa, California, Guam, Hawaii, Idaho, Nevada, Oregon, Washington
- ❑ Southeast (SE)—Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, Puerto Rico, South Carolina, Tennessee, U.S. Virgin Islands

**REMOTE AREA PARK**—See **POPULATION CENTERS**.

**RURAL AREA PARK**—See **POPULATION CENTERS**.

**SERVICE PERSONNEL**—Employees of the NPS who are assigned to the park or are visiting the park in connection with their duty assignments, NPS contractors, concession employees, cooperating association employees, and the temporary or permanent members in the households of NPS employees who reside in the park.

**SUBURBAN AREA PARK**—See **POPULATION CENTERS**.

**URBAN AREA PARK**—See **POPULATION CENTERS**.

**VISIT**—The entry of any person onto lands or waters administered by the NPS. There are three categories of visits to parks: (1) visits that are not reported as visitor use; (2) non-recreation visits that are reported as visitor use; and (3) recreation visits that are reported as visitor use. Negligible transit is non-reportable. Same-day re-entries and entries to detached portions of the same park on the same day are considered to be a single visit. Visits are reported separately for two contiguous, independently authorized parks.

**VISITOR DAY**—Twelve visitor hours in a park.

**VISITOR HOUR**—The presence of one or more persons, excluding service personnel, in a park for continuous, intermittent, or simultaneous periods of time aggregating one hour (e.g. one person for

one hour, two persons for one-half hour each, etc.). Although same day attendance at detached portions of the same park are considered duplicate counts and are not reported as separate visits, the time spent by a visitor at detached units is added together for the visitor hour estimate.
